At your table, **pick one** strategic goal and explore it through a collaboration lens. Capture two to three characteristics that relate to:

- Face-to-face collaboration
- At a distance collaboration
- Synchronous collaboration
- Asynchronous collaboration

Starting with the most difficult one, discuss at your table how technology can address the characteristics you've captured.

Starting with the most difficult one, discuss at your table how technology can address the characteristics you've captured.

What are some of the **human factors** that need to be considered in order to ensure success?

Are there **cultural conditions** that would need to be addressed? How can technology help?

What are some of the **human factors** that need to be considered in order to ensure success?
